Perfect for
beginners

POM-POM GARLAND

1 Cut a length of Cyan Shimmer to 1m long. Cut two more pieces to 30cm and three pieces to 40cm. Tie the five shorter lengths to the 1m length, alternating lengths evenly so they hang vertically

2 You will need at least 35 winds on each side of smaller pom-pom maker and 50 winds on larger. Close arms of pom-pom maker, use sharp scissors to clip yarn between two halves and tie a double length of yarn tightly around the centre. Remove pom-pom maker, fluff the ball and clip ends to neaten. Do not clip ends of securing yarn

TOP TIP

For a rounder finish to your pom-pom, wind first few layers of yarn without stretching, pull it slightly tighter with subsequent layers

3 Make 39 pom-poms in both sizes using Citrus Zest, Violet Sky, Peach Bellini, Hibiscus Pink and Shell Pink

4 Use a tapestry

needle to thread vertical lengths of yarn through centre of pom-poms, knot below each one. Use long tails of securing

yarn to tie more pom-poms to main 1m length, cover knots of shorter length as you go. Trim away excess yarn tails
